

# PRESS RELEASE

## Going beyond standard Calibration

A survey of recent customers has revealed just why companies view AMECaL as their number one choice for calibration of electrical (16th/17th edition) instruments!

The speed of our turnaround time was the number one benefit for over half of those taking part in the survey – with our price, overall customer service and reliability all quoted as other crucial areas where we were meeting or exceeding expectations.

We were also exceptionally pleased to see that every one of the customers in our survey rate our overall service as "Good" or "Excellent" - with over half deciding on "Excellent". We're here to serve and we always aim to exceed expectations. There's always room for improvement though and we're constantly striving to improve further.

For further details, contact David Heppell at AMECaL on 0191 262 2266; Fax on 0191 262 6622 or email [david@amecal.com](mailto:david@amecal.com)

**More about AMECaL:** Proud of being one of the few privately owned independent laboratories in the North East, AMECaL's multi-laboratory operation is viewed as a premier facility. The company provides one of the UK's most competitive portfolios of calibration and repair services, supporting a wide range of industries both locally and nationally in all fields of calibration and on a vast array of measuring equipment. State of the art calibration services are carried out either in one of the company's environmentally controlled laboratories, or on clients' sites. ## END ##
